Software Architects Inc.

ValidateMPV!™ MPV validation tool for MS Windows

Order Form

ValidateMPV! Product & License Information

ValidateMPV! for MS Windows is the one software tool you need to ensure that your product is writing OSTA MPV Interoperability Specification 1.0 compliant multi-media play lists. The tool provides valuable feedback on the type of errors found and references the exact section of the specification related to the error. This is the first and only validation tool for MPV Interoperability Specification play list writing compliance. **(*Mac OS version available upon request*)**

There are three types of licenses for ValidateMPV:

$500 per copy authorized for single computer system use
$1,500 per site license authorized for multiple computer at a single site location
$2,500 per company license authorized for multiple computers at multiple locations
